So while I spent most of the last month sweating on the Amazing Tales Kickstarter (Funded, thank you all), I needed some distraction activities. And that ended up being completing my project to create user friendly character sheets for Warhammer Fantasy Roleplay, with variants for users of arcane and divine magic. The basic form fillable character sheet So, without further ado... What's so good about these sheets? Well first, they're form fillable, and I've used that to handle a lot of the calculation that WFRP requires. So when you update a characteristic the associated skills auto-update. Toughness bonuses, strength bonuses and the like are auto-calculated. There's even an extra tick-box for halflings to change the wound calculation. There are similar tick boxes for the talents that impact other, secondary characteristics. So there's one for Pure Soul, to modify your corruption limit and two for sturdy and strong back, which modify your encumbrance limit. In terms of layout I've tweaked a few things: I've not included space for hair colour, eye colour and the like. Instead there's a space to upload a photo, and a big space for a paragraph of text at the top. In there you can keep track of your motivation, ambition and any physical characteristics you care about. There's a little bullet you can highlight next to characteristics and skills so you can indicate the ones that are part of your current career. All the skills and talents and 'roleplaying' stuff has been moved to the front page. That's what you'll want to be looking at most of the time. On the back page is everything you need for combat, and your equipment list. Experience and career info is on the back as well – you only need it once a session. For magic users I've attempted to liberate you from having to constantly page through the rulebook, and/or trying to fit everything into a tiny space on the character sheet. The magic user sheets have extra pages devoted to your magical skills and spells. For both there's a summary of the key rules, room to write in all your spells/blessings/miracles and your essential skills and talents are automatically repeated there. The extra pages for the Arcane Sheet Finally, while I like the faux parchment background I'm aware that some people (and their printers) don't. So all the character sheets are organised into layers, meaning you can turn off the background. Call of Cthulhu I love the design of the character sheet from the third edition from 1983 as one can see on the sheets here. Back then Games Workshop published many roleplaying games together with the RPG companies. Jeg elsker designet af karakter arket fra tredje udgaven fra 1983, som man kan se på arkene her. Den gang udgave Games Workshop mange rolespil sammen med RPG firmaerne. 2 pages sheet for 1920's - A4 (Pdf 90 Kb) 2 pages sheet for 1920's - Letter (Pdf 95 Kb) 2 pages sheet for Delta Green - A4 (Pdf 70 Kb) 2 pages sheet for Delta Green - Letter (Pdf 65 Kb) 4 pages sheet for 1920's - A4 (Pdf 80 Kb) 4 pages sheet for 1920's - Letter (Pdf 80 Kb) Dark Heresy This game is my favorite game at the moment. I have tried to improve the sheet by making it easier to find the informations on the sheet and adding some admosfer. Are you looking for more Dark Heresy stuff, then look at the RPG page. Dette spil er mit favorit spil i øjeblikket. Jeg har prøvet at forbedre arket ved at gøre det lettere at finde informationerne på arket og ved at tilføje noget atmosfære. Er du på udik efter flere Dark Heresy ting, så prøv at kikke på RGP siden. 3 pages editable sheet - A4 (Zip/Pdf 1.1 Mb) Originally I hadn't thought about making an editable sheet, but then a guy named Mat sent a mail with my sheet in an editable version. That was really cool! Sent Mat a friendly thought, if you use this sheet. In the end I changed almost every thing, because I wasn't quit satisfied with the choice of font, font sizes and what things could be filled in. I hope you will appreciate the many hours that I have used struggling with the field tools in Acrobat Professionel. I really hope these tools will be improved in the coming versions. I have added a page where you can record Contacts, Alter Egos, XP advancements, Other players, Faith and there is room to draw a portrait. Jeg havde oprindeligt ikke tænkt mig at lave arket redigerbart, men så kom der en mail fra en gut ved navn Mat, som havde vedhæftet mit ark i en redigerbart version. Og det var jo rigtig fedt! Så send Mat en venlig tanke, hvis du benytter dig af dette ark. Jeg er dog endt med at lave næsten det hele om, da jeg ikke var helt tilfreds med skriftvalg, skriftstørrelser og hvilke ting, der kunne udfyldes. Jeg håber, at du vil sætte pris på de mange timer, som jeg har brugt på at bakse med feltværktøjerne i Acrobat Professionel. Jeg håber virkelig, at disse værktøjer vil blive forbedret i kommende versioner. Jeg har tilføjet en side, hvor der er plads til at skrive, Contacts, Alter Egos, XP advancements, Other players, Faith og der er plads til at tegne et portræt. Denne pdf indholder de mest basale ting til at lave en MERP karakter. Det er meget lettere end i storebror Rolemaster, hvilket er en god ting efter min mening.
